

## **Document Production and Management Solutions**

Pride provides trained production artists who can design and produce custom-formatted multi-media presentations for a range of client requirements including; external client presentations, management and financial reporting, general marketing collateral and investor presentations.

Pride's 24/7 offshore document production services can help clients increase flexibility and cut costs.

In addition, Pride's customized document management solutions help clients develop and implement the most cost effective and efficient document management solution to maintain and securely archive critical documents including legal papers, marketing collateral, research documents, and knowledge management resources.

In addition, Pride's onshore and offshore facilities offer state-of-the art physical and data security protocols that assure the confidentiality and sanctity of all client documents.
